110 Pasito Terrace
Apt. 201
Sunnyvale, CA 94086

Goals

To help foster a culture of collaboration and engagement within the veterinary clinic. I thoroughly enjoy teaching, training problem solving and am currently working towards a B.A.S. in veterinary technology with an emphasis in management.

Experience

ER and Nursing Clinical Supervisor, RVT, MedVet; Mountain View, CA - 2021-present

- Clinical Supervisor
 - Collaborate with leadership to create new protocols for the departments and hospital
 - Participate in providing feedback to the team members during their annual reviews
 - Have one on one meetings with each of my direct reports giving them performance feedback, answering questions they might have and providing any resources they may need
 - Adjust work assignments based on caseload and last minute schedule changes

ICU and Emergency Technician, Adobe Animal Hospital; Los Altos, CA - 2014-2021

- Competency List Committee member and Training Coordinator
 - Helped design and create training documents for the hospital's skills list
 - Led training sessions for current staff members on a variety of topics including medical math and advanced tube placements
 - Compiled monthly newsletters that included training information for the staff
 - ICU Intern Coordinator
 - Trained incoming technicians and interns on how to work effectively and efficiently in the ICU
 - Maintained resources including informational handouts and quizzes for new hires and interns
-

- Provided patients with a high level of nursing care
- Assisted clients with medical advice calls, surgery and hospitalization discharge instructions, and inpatient updates
- Monitored sedated patients for a variety of procedures including wound care and diagnostic procedures
- Induced and monitored anesthesia on a wide variety of emergency surgeries
- Maintained our Snyder ICU unit which included replacing parts, troubleshooting issues and contacting the technical support representative for further assistance
